

Strengthening Minnesota businesses by maximizing efficiency and lowering costs through energy, water and waste reduction

**Internship:** Lead a project focused on water conservation.

**Company:** Seacole Specialty Chemicals, Plymouth, MN

The Minnesota Technical Assistance Program (MnTAP) is seeking a junior or senior college student to lead a project focused on water conservation with Seacole Specialty Chemicals in Plymouth, MN. The student will map the facility's use of water, and then explore high water using processes for water conservation and reuse strategies. The intern will quantify these opportunities, develop suggestions and outline plans for implementation.

### JOB DUTIES:

As part of this project, you will be asked to complete the following tasks:

1. Complete process map of on-site water usage.
2. Investigate strategies to conserve and reuse water.
3. Develop a cost-effective proposal to achieve water savings.
4. Estimate water and cost savings for implementation of provided recommendations, then prioritize suggested changes using simple payback methods for financial justification.
5. As appropriate, initiate implementation of approved process changes or develop plans for future implementation.
6. Summarize findings in a detailed report, including recommended procedures and vendor identification along with an economic analysis and justification of changes.
7. Present findings to the company and at MnTAP-hosted public presentation events.

As an intern, you will work at the company and report back to MnTAP. The position is full time, 40 hours per week, for three months to start after the conclusion of spring semester or quarter. Pay is \$18/hour, with a lump sum stipend of \$1,000 upon completion of the project deliverables: a final report and presentations. Cumulatively, this equates to \$20.00/hour when averaged over the project. Candidates must pass a background check and company required drug screening.

### QUALIFICATIONS:

- Cumulative GPA of at least 3.0
- Good oral & written communication skills
- A technical academic background
- Troubleshooting skills
- Self-motivated
- Excel, Visio 365 and other software skills
- Appropriate majors: *Engineering, environmental or physical sciences and others as applicable*

### TO APPLY:

Apply online at:
