

Low-VOC, low-HAP, UV, & waterborne wood finishes suppliers

This reference list includes manufacturers and distributors of environmentally preferred wood finishes. If waterborne, low volatile organic compound (VOC), low hazardous air pollutant (HAP), and ultra violet (UV) curable wood finishes are available, that is noted as well.

The companies featured on this reference list are manufacturers and distributors of environmentally preferred wood finishes. The availability of waterborne, low-VOC, low-HAP, and UV curable wood finishes is noted.

MnTAP maintains the following list solely as a service to Minnesota companies. This is not a complete list of available suppliers and does not represent an endorsement by MnTAP. MnTAP, by providing the list, does not represent that the products do or do not ensure compliance with environmental and safety laws in any specific application.
